

SEAL GLAZE

Clear Semi-Gloss Concrete & Masonry Sealer

1. Product Description

a. Basic Use: Seal Glaze is a water-based acrylic sealer that dries to a clear, hard, semi-gloss finish. It penetrates deep and seals against water, dirt, and stains.

b. Features & Benefits:

- Gives greater definition to most surfaces.
- Retains original beauty of masonry buildings and structures.
- Will not yellow with age.
- Seal Glaze is self-cleaning on exterior surfaces when exposed to rainfall.
- Permits moisture to escape from walls.
- Reduces staining of alkaline efflorescence.
- Great for renewing old floors.
- Odor-free, nonvolatile, and easy to clean up.

c. Typical Application: Use Seal Glaze on new or old surfaces of terrazzo, concrete, asphalt tile, or vitrified tile. Seal Glaze is great for brick, stone, exposed aggregate panels, bush hammered concrete, marble, split rock, and stucco.

d. Limitations: Seal Glaze is not recommended to seal floors exposed to underground water, slate, or quarry tile floors. Seal Glaze is not recommended for sealing heavy-duty industrial floors.

e. Storage: Do not freeze.

2. Packaging

Seal Glaze is packaged in a 1-quart can, 1-gallon jug, 5-gallon pail, 55-gallon drum, 4/1-gallon case, and 12/1-quart case.

3. Coverage

Coverage will vary depending on porosity of the surface, but will be approximately 350 to 500 square feet per gallon.

4. Directions for Use

a. Application: Wash all floors and allow time to dry. Apply Seal Glaze with a brush, roller, lamb's wool (floor-waxer type) applicator, or low pressure spray. Surfaces must be 50°F (10°C) or above. For maximum protection, apply two coats. Allow 15 to 30 minutes drying time, depending on the temperature, before applying a second coat.

5. Availability

Sealwall Seal Glaze is normally available immediately from your local distributor or it will be shipped within 4 working days upon receipt of order. Please contact your local Sealwall representative or call Sealwall Products directly for more information.

6. Warranty

Sealwall Seal Glaze is manufactured in strict accordance with the quality control standards of Sealwall Products. It is guaranteed to perform as indicated on this data sheet when applied by competent applicators.
